REQUEST FOR RECONSIDERATION UNDER 37 C.F.R. § 1.116

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

This Request is in response to the Office Action mailed May 22, 2003.

REMARKS

Initially, Applicant submitted a Request for Personal Interview with proposed arguments, and, on Monday, July 21, 2003 during a telephone conference, the Patent Office denied the Request for Personal Interview. The proposed arguments submitted with the Request for Personal Interview are incorporated herein by reference.

Claims 1 and 3-7, following entry of this Amendment, are all the claims pending in the present application. Claims 4-7 have been withdrawn from reconsideration.

Reconsideration of the subject patent application and allowance of all of the claims is respectfully requested in view of the following remarks.

Claims 1 and 3 have been rejected under 35 U.S.C. § 112, second paragraph, as being indefinite. Particularly, it is asserted that the junction termination, which has not been positively recited, is not disclosed. However, the trench as recited in claim 1 is supported in the specification at page 4, line 30-page 5, line 6. Accordingly, Applicant respectfully requests that the rejection of these claims be withdrawn.
